**Goat Kids Rearing: an Agro Based Business
for Unemployed Educated Youths****Dr. Shaikh I. M.***Associate Professor, Department of Zoology**Dnyanopasak Shikshan Mandal's**Arts, Commerce and Science College Jintur, Dist. Parhani. MS.***ABSTRACT**

Growing population and shrinking of jobs results in unemployment. As the proverb goes, "Empty mind is devils workshop." The empty minds instigate the empty hands for destructive social activities and spoil social harmony. As the current fiscal scenario mirrors that after 1990 the initiation of privatization, liberalization and globalization, the world having become global village have flung the doors of various opportunities wide open to all. To lessen the evils of these three initiatives the government has undertaken certain measures. The economic initiatives like creation of employment various startups, make in India are meant create jobs for the unemployed and thereby making sustainable growth for the economic in depends and making the country self-reliant and a growing superpower in the world. One such employment generating entrepreneurship for the unemployed educated youths and thereby abolishing the unemployment in the country is, "Goat kids rearing.

FULL PAPER

INTRODUCTION

To eradicate the poverty of rural India by generating employment has various options like improvement in farming methods, supplementing with various agro based side businesses, opening doors to new economic ideas etc. In agro based industries there are various opportunities like food processing and its marketing, Poultry farming, Dairy farming, Pig farming, Fish farming, Duck farming, Crab farming, Stud farming, Sericulture, Horticulture etc. Out of these goat keeping is more profitable and suitable for all from children, women, old man, youths, and farmers. The raw materials like fodder. Shade, water, is easily available with the farmers. If they cannot afford to buy goats there is government financial aid offered through various financial institutions like banking, corporations, boards, bureaus etc. All the members of the family from children, women and even old man can collaborate and offer a helping hand to the farmer for the promotion of the business like feeding the animals watering them, cleaning them, shearing them, looking after them applying modern technology like mobile phones for their sale, milking them and selling, packing, branding, marketing it.

Fig: Goat Kids

MATERIALS AND METHODS

After witnessing the poverty stricken rural India in his study survey in the scenario of drought prone Marathwada region the heart of the researcher was shaken and an urge some constructive work for them enhance their life

standard and thereby sprinkle joy in their lives. The goat kids rearing for one year can be an ideal and the most beneficial basic agro based business for them. Instead of keeping goats and breeding the kids small goat kids after weaning can be bought and reared them enclosed for one year properly and can be sold online using the modern marketing technology platform can make them a rapidly rich. A dozen goat kids if bought are reared for one year properly taking utmost care can yield grate profit. The land for the shelter, fodder, water and working hands are available with the farmers, he only needs veterinary cares like inoculation, advise In food and health care treatment of various diseases. If he has no financial support the government is their door step to offer it through its above mentioned agencies. He neither need nor roam from door to door and bazar to bazar to sail his finished product. There is a modern technology platform in the handlings of which modern young generation is adept. So from one place he can also do all the businesses from the beginning to the end i.e. form buying the kids to sailing the bucks to the consumers for all purposes like religious ceremonies like sacrificing and appeasing the gods and deities in various religions like Peer, Dargah, Eid, fair etc for kandori, Kurbani, Haquika, like others for fist, parties, for commercial purposes like Biryani, Tahari, Halem, Harish in various functions like weddings, ceremonies etc.

CONCLUSION

To sum-up it can be inferred that of all the benefits of goat keeping for milk, fur /wool, manure, rearing goat kids for a year and converting them into healthy fat bucks and marketing them on online platform with the assistance of modern scientific technology can become an ideal startup and enterprise and an ideal agro based industry independent of side business for all even small saving women's groups for self-reliant sustainable growth is a matter to be deeply thought over .
